October 19, 2020

Emergency Service District No. 8 Customers:

City of Georgetown would like to announce the opening of Fire Station No. 6 on October 19, 2020. The fire station is located 6700 Williams Drive, Georgetown, TX 78633. Just west of the intersection of Williams Drive and FM 3405.

The current Insurance Service Office (ISO) Public Protection Classification (PPC) rating for the City of Georgetown and Williamson County Emergency Services District No. 8 (WCESD #8) is a split rating of Class 2/8B. https://fire.georgetown.org/iso-ratings/

Effective on November 1, 2020, the new Insurance Services Office PPC rating for the City of Georgetown and WCESD #8 will be a Class 2/2Y.

Like the old rating, a split Class 2/2Y, all class-rated properties located within 1000 feet of a fire hydrant or water supply suction point AND within 5 road miles of a fire station will use Class 2. All class-rated properties located farther than 1000 feet of a fire hydrant or water supply suction point AND within 5 road miles of a fire station will use Class 2Y.

All properties located farther than 5 road miles from a fire station will use Class 10 rating.

Residents living within the city limits of Georgetown and Williamson County Emergency Service District No. 8 (WCESD #8) may be eligible for a reduction in their homeowner insurance premiums because of the opening of Fire Station 6. Call your insurance agent to find out more. Should you have questions or need additional assistance, contact the Georgetown Fire Department at 512-930-3473 (FIRE) or fire@georgetown.org

Sincerely,

John Sullivan
Fire Chief
